Product Heavy Duty Degreaser

Revision date 29 May 2020

Revision 2

Safety Data Sheet (SDS)

according to Regulation (EC) No. 1907/2006

Section 1: Identification of the substance/preparation and of the company/undertaking

1.1 Product identifier

Product name Heavy Duty Degreaser

Product no. 604

Synonyms, Trade names No information available.

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified usesCleaning agent.Uses advised againstAny other purpose.

1.3 Details of the supplier of the safety data sheet

Supplier Kitchenmaster NI Ltd

11 Comber Road

Belfast BT8 8AN United Kingdom Tel: 028 90814777

Contact person sales@kitchenmaster-ni.com

1.4 Emergency telephone number

Emergency telephone Emergency Telephone Number: 028 9081 4777 08:30 - 17:00 Monday to Thursday 08:30 -

16:30 Friday

Section 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (EC 1272/2008)

Physical and chemical hazards Me. Corr 1 - H290
Human health Skin Corr. 1C - H314
Environment Not classified

2.2 Label elements

Contains potassium hydroxide

Detergent labeling ≥5% <15% aliphatic hydrocarbons <5% non-ionic surfactants

Label in accordance with (EC) no.

1272/2008

Signal word Danger

Hazard statements H290 May be corrosive to metals.

H314 Causes severe skin burns and eye damage.

Precautionary statements Prevention

P234 Keep only in original container.

 ${\tt P280\ Wear\ protective\ gloves/\ protective\ clothing/eye\ protection/face\ protection.}$

Response

P301 + P330 + P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P303 + P361 + P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/ shower.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER or doctor/physician.

2.3 Other hazards

None known.

Section 3: Composition/identification of ingredients

3.1 Substance

Not applicable.

3.2 Mixtures

| Name | Product identifier | Reg. EU 1272/2008 | % |
|-------------------------------|--|--|-------|
| sodium xylenesulphonate | CAS-No.: 1300-72-7 EC No.: 215-090-9 | Eye Irrit.2A - H319 | 1-5% |
| propan-2-ol | CAS-No.: 67-63-0 ECNo.: 200-661-7 REACH Reg No.: 01-2119457558-25-0000 | Eye Irrit.2A - H319, Flam. Liq 2- H225, STOT SE 3 - H336 | 1-5% |
| SODIUM ALKANE SULPHONATE | CAS-No.: 85711-69-9 EC No.: 288-330-3 | Skin Irrit.2 - H315, Eye Dam. 1 - H318 | 1-5% |

The full text for all hazard statements are displayed in section 16.

Composition comments

The data shown are in accordance with the latest EC Directives.

Section 4: First aid measures

4.1 Description of first aid measures

General information As a general rule, in case of doubt or if symptoms persist, always call a doctor. Seek medical

attention for all burns and eye injuries, regardless how minor they may seem. First aid personnel must be aware of own risk during rescue. Provide general first aid, rest, warmth

and fresh air.

Inhalation Move the exposed person to fresh air at once. If breathing is difficult, oxygen should be

 $administered\ by\ qualified\ personnel.\ If\ not\ breathing,\ give\ artificial\ respiration.\ Get\ prompt$

medical attention.

Ingestion Get medical attention immediately. Do not induce vomiting. Provided the patient is fully

conscious, rinse mouth with water and give plenty of water to drink. Never give anything by mouth to an unconscious person. Artificial respiration and/or oxygen may be necessary. Take off contaminated clothing and shoes immediately. Promptly flush contaminated skin with water. Continue to rinse for at least 15 minutes. Seek medical attention immediately.

SPEED IS ESSENTIAL. Avoid contaminating unaffected eye. Wash thoroughly with soft, clean water for 15 minutes holding the eyelids open. Remove contact lenses if present and

easy to do so. Get medical attention immediately.

Skin contact

Eye contact

4.2 Most important symptoms and effects, both acute and delayed

General information The severity of the symptoms described will vary dependant of the concentration and the

length of exposure.

Inhalation Irritating to respiratory system.

Ingestion May cause chemical burns in mouth and throat. May cause severe internal injury.

Skin contact Corrosive. Causes severe skin burns.

Eye contact May cause irreversible eye damage. Symptoms may include redness, lachrymation, swelling

of tissue, burns.

4.3 Indication of any immediate medical attention and special treatment needed

Section 5: Fire-fighting measures

5.1 Extinguishing media

environment. Water spray. Water fog. Foam. Dry powder. Carbon dioxide. Dry chemical.

Unsuitable extinguishing media High volume water jet

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products Thermal decomposition or combustion may liberate carbon oxides and other toxic or

irritating gases or vapours.

Unusual fire & explosion hazards Irritating or corrosive vapors may be emitted during a fire. Do NOT breathe fumes. Contain

run-off. In contact with metals generates hydrogen gas, which together with air can form

explosive mixtures.

Specific hazards During fire, gases hazardous to health may be formed. In the event of damage to packaging,

floors may become slippery, avoid falls.

5.3 Advice for firefighters

Special fire fighting procedures If possible, fight fire from protected position. Ventilate closed spaces before entering them.

 $\label{thm:containers} \textbf{Keep up-wind to avoid fumes. Avoid breathing fire vapours. Containers close to fire should}$

be removed immediately or cooled with water if safe to do so.

Protective equipment for fire-fighters Fire-fighters should wear appropriate protective equipment and self-contained breathing

apparatus (SCBA) with a full face-piece operated in positive pressure mode. Personal protective equipment conforming to European standard EN 469 will provide a basic level of

protection for chemical incidents.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions Do not mix with other chemicals. Wear protective clothing as described in Section 8 of this

safety data sheet. Avoid inhalation of vapours and contact with skin and eyes. Provide adequate ventilation. In case of inadequate ventilation, use respiratory protection. Eliminate

all sources of ignition.

For emergency responders Follow safe handling advice and personal protective equipment recommendations for normal

use of product.

6.2 Environmental precautions

Environmental precautions Avoid discharge into drains, water courses or onto the ground. Spillages or uncontrolled

discharges into watercourses must be IMMEDIATELY alerted to the Environmental

Protection Agency or local authority.

6.3 Methods and material for containment and cleaning up

Spill clean up methods Ventilate and evacuate the area. Eliminate all ignition sources. Wear necessary protective

equipment DO NOT touch spilled material! Stop leak if possible without risk. Use non-metallic tools/containers for clean up. In case of spills, beware of slippery floors and

surfaces.

Absorb spillage with inert, damp, non-combustible material or use a liquid binding material. Place waste material into suitable labelled sealed containers for disposal. Remove waste

promptly to a safe area. Flush with plenty of water to clean spillage area.

6.4 Reference to other sections

Reference to other sections See section 1 for emergency contact. For personal protection, see section 8. For waste

disposal, see section 13.

Section 7: Handling and storage

7.1 Precautions for safe handling

Handling Read and follow manufacturer's recommendations. Use personal protective equipment, see

Section 8. Avoid contact with skin and eyes. Do not handle broken packages without protective equipment. Ensure adequate ventilation. If necessary, use local exhaust ventilation. Use only equipment and materials which are compatible with the product.

Always wash hands after handling.

7.2 Conditions for safe storage, including any incompatibilities

Storage precautions Keep locked up and out of reach of children. Store in tightly closed original container in a

cool, dry and well-ventilated place. Avoid contact with metals.

Storage class Corrosive storage

7.3 Specific end use(s)

Specific end use(s) The identified uses for this product are detailed in Section 1.2.

Usage description Use only according to directions.

Section 8: Exposure controls/Personal protection

8.1 Control parameters

| Component | STD | TWA (| (8 Hrs) | STEL (| 15mins) | Notes |
|---------------------|-----|---------|-----------------------|---------|------------------------|-----------|
| propan-2-ol | OEL | 200 ppm | | 400 ppm | | Sk |
| propan-2-ol | WEL | 400 ppm | 999 mg/m ³ | 500 ppm | 1250 mg/m ³ | |
| 2-butoxyethanol | OEL | 20 ppm | 98 mg/m³ | 50 ppm | 246 mg/m ³ | Sk, IOELV |
| 2-butoxyethanol | WEL | 25 ppm | 123 mg/m ³ | 50 ppm | 246 mg/m ³ | Sk, BMGV |
| potassium hydroxide | OEL | | | | 2 mg/m ³ | |
| potassium hydroxide | WEL | | | | 2 mg/m ³ | |
| bornan-2-one | OEL | 2 ppm | 12 mg/m ³ | 3 ppm | 18 mg/m ³ | |

Ingredient comments WEL - Workplace Exposure Limits - EH40/2005 Workplace exposure limits. Ireland, Occupational Exposure Limits 2020.

8.2 Exposure Controls

Engineering measures Respiratory equipment Provide adequate ventilation.

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Use respirators and components tested and approved under appropriate government standards such as CEN (EU). If the respirator is the sole means of protection, use a full-face supplied air respirator.

Self-contained breathing apparatus (EN 133). Respirator with a vapour filter (EN 141). ABEK (EN 14387). Use respiratory protection as specified by an industrial hygienist or other qualified professional.

Hand protection

Where hand contact with the product may occur the use of gloves approved to relevant standards (e.g. Europe: EN374) is recommended. (EU Directive 89/686/EEC). Selection of the glove material depends on consideration of the penetration times, rates of diffusion and degradation, and concentration specific to the workplace. Gloves must be inspected prior to

use.

Suggested material: Butyl-rubber. Neoprene. Minimum layer thickness: 0.11 mm. Break through time: 480 min. Gloves must be inspected prior to use. Consult manufacturer for specific advice on material. Use proper glove removal technique (without touching glove's

outer surface) to avoid skin contact with this product.

Eye protection Wear safety goggles or face shield to prevent any possibility of eye contact. Use equipment

for eye protection tested and approved under appropriate government standards such as EN

166(EU).

Other protection Wear appropriate clothing to prevent any possibility of skin contact. The selected clothing

must satisfy the European norm standard EN 943. Protective clothing should be selected based on the task being performed and the risks involved and should be approved by a

specialist before handling this product.

Hygiene measures DO NOT SMOKE IN WORK AREA! Wash hands after handling. Wash promptly if skin

becomes wet or contaminated. Promptly remove any clothing that becomes contaminated.

When using do not eat, drink or smoke.

Process conditions Keep container tightly sealed when not in use. Ensure that eye flushing systems and safety

showers are located close by in the work place.

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance Liquid.

ColourColourless. Clear, pale yellow.OdourNo information available.

Odour threshold - lower No information available as testing has not been completed.

Odour threshold - upper No information available as testing has not been completed.

pH-Value, Conc. Solution 13 - 14

pH-Value, **Diluted solution** Not applicable as the product is a concentrated solution.

Melting point No information available as testing has not been completed.

Initial boiling point and boiling

range

No information available as testing has not been completed.

Flash point No information available as testing has not been completed.

Evaporation rate No information available as testing has not been completed.

Flammability state The product is not classified as flammable.

Flammability limit - lower(%) Not applicable as the product is not classified as flammable.

Flammability limit - upper(%) Not applicable as the product is not classified as flammable.

Vapour pressure No information available as testing has not been completed.

Vapour density (air=1) No information available as testing has not been completed.

Relative density 1.046g/cm³ @ 20.00 °C

Bulk density Not applicable as the product is a liquid.

Solubility No information available.

Decomposition temperature No information available as testing has not been completed.

Partition coefficient; n-

Octanol/Water

No information available as testing has not been completed.

Auto ignition temperature (°C) Not applicable as the product is not classified as flammable.

Viscosity No information available as testing has not been completed.

Explosive properties Not classified as explosive.

Oxidising properties The product does not meet the criteria to be classified as oxidising.

9.2 Other information

Molecular weight Not applicable as the product is a mixture.

Volatile organic compound No information available as testing has not been completed.

Other information None noted.

Section 10: Stability and reactivity

10.1 Reactivity

Reactivity Corrosive to metals. Reaction with acids.

10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

10.3 Possibility of hazardous reactions

Hazardous reactions Reacts with acids. Attacks metals liberating flammable hydrogen gas.

Hazardous polymerisation Unknown.

Polymerisation description Not applicable.

10.4 Conditions to Avoid

Conditions to avoid Heat, sparks, open flames, temperature extremes and direct sunlight. Avoid freezing.

10.5 Incompatible materials

Materials to avoid Metals, Salts of metals, Acids, Organic materials.

10.6 Hazardous decomposition products

Hazardous decomposition products Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.

Section 11: Toxicological information

11.1 Information on toxicological effects

Toxicological information No toxicological information for the overall finished product.

Acute toxicity (Oral LD50)

No information available as testing has not been completed.

Acute toxicity (Dermal LD50)

No information available as testing has not been completed.

Acute toxicity (Inhalation LD50) No information available as testing has not been completed.

Serious eye damage/irritation Causes serious eye damage.

Skin corrosion/irritation The product is classified as a skin corrosion/irritation hazard.

Respiratory sensitisationThe product is not classified as a respiratory hazard. **Skin sensitisation**The product is not classified as a skin sensitisation hazard.

Germ cell mutagenicity The product is not classified as a mutagen.

Carcinogenicity The product is not classified as a carcinogen hazard.

Specific target organ toxicity - Single exposure:

STOT - Single exposure The product is not classified as a single exposure specific target organ toxin.

Specific target organ toxicity - Repeated exposure:

STOT - Repeated exposureThe product is not classified as a repeat exposure specific target organ toxin.

Inhalation Irritating to respiratory system.

Ingestion May cause chemical burns in mouth and throat. May cause severe internal injury.

Skin contact Corrosive. Causes severe skin burns.

Eye contact May cause irreversible eye damage. Symptoms may include redness, lachrymation, swelling

of tissue, burns.

Waste management Dispose of in accordance with local and national regulations. When handling waste,

consideration should be made to the safety precautions applying to handling of the product.

Routes of entry Eyes, skin, ingestion or inhalation.

Target organs Eyes, skin, digestive system, respiratory system.

Aspiration hazards: The product is not classified as an aspiration hazard. **Reproductive toxicity:** The product is not classified as a reproductive hazard.

| Name | LD50 oral | LD50 dermal | LD50 inhalation |
|-------------------------|-------------------|--------------------------|-----------------|
| SODIUM ALKANESULPHONATE | >2000.00mg/kg Rat | | |
| 2-butoxyethanol | 1746.00mg/kg Rat | >2000.00mg/kg Guinea Pig | |
| potassium hydroxide | 333.00mg/kg Rat | | |
| sodium xylenesulphonate | >2000.00mg/kg Rat | | |

Section 12: Ecological information

12.1 Toxicity

Acute toxicity - Fish

Acute toxicity - Aquatic invertebrates

No information available as testing has not been completed.

Acute toxicity - Aquatic plants

Acute toxicity - Microorganisms

No information available as testing has not been completed.

Acute toxicity - Microorganisms

No information available as testing has not been completed.

Chronic toxicity - Fish

No information available as testing has not been completed.

No information available as testing has not been completed.

No information available as testing has not been completed.

invertebrates

Chronic toxicity - Aquatic plants

No information available as testing has not been completed.

No information available as testing has not been completed.

EcotoxicityThe product is not classified as environmentally hazardous. However, this does not exclude

the possibility that large or frequent spills can have a harmful or damaging effect on the $\,$

environment.

Eco toxilogical information No ecological toxicity available on the overall finished product.

12.2 Persistence and degradability

DegradabilityThe degradability of the product has not been stated.Biological oxygen demandNo information available as testing has not been completed.Chemical oxygen demandNo information available as testing has not been completed.

12.3 Bioaccumulative potential

Bioaccumulative potential
Bioaccumulation factor
Partition coefficient; nOctanol/Water

No data available on bioaccumulation.
No information available as testing has not been completed.
No information available as testing has not been completed.

12.4 Mobility in soil

Mobility Soluble in water.

12.5 Results of PBT and vPvB assessment

Results of PBT and vPvB assessment The product does not contain any PBT or vPvB Substances.

12.6 Other adverse effects

Other adverse effects None known.

| Name | ACUTE TOXICITY (FISD) | Acute toxicity (Aquatic invertebrates) | Acute toxicity (Aquatic plants) |
|------|-----------------------|--|---------------------------------|
|------|-----------------------|--|---------------------------------|

| SODIUM ALKANE SULPHONATE | LC50 96 Hours 5.00ppm Freshwater Fish | | |
|-----------------------------|--|--|--|
| propan-2-ol | LC50 96 Hours 9640.00mg/l Pimephales promelas (Fathead Minnow) | | |
| 2-butoxyethanol | , , , | EC50 48 Hours 1550.00mg/l Daphnia magna | |

Section 13: Disposal considerations

Waste management Dispose of in accordance with local and national regulations. When handling waste,

consideration should be made to the safety precautions applying to handling of the product.

13.1 Waste treatment methods

Disposal methods Dispose in a safe manner in accordance with local/national regulations. For waste disposal,

use a licensed industrial waste disposal agent.

Section 14: Transport information

14.1 UN number

 UN no. (ADR)
