TECHNICAL SPECIFICATION

AUTOMATIC DISHWASHING POWDER 260

A non caustic, non foaming, white alkaline machine dishwashing powder with a chlorine releasing agent for hand feeding into under- counter and other automatic dishwashing machines. Contains a blend of wetting and chlorine releasing agents, non caustic alkalis, sequestering agents and corrosion inhibitor.

Features include:

- Economical in use.
- May be used in single tank machines.
- Effectively removes soils and stains from glasses, crockery and cutlery.
- Inhibits the formation of scale in machine, ensuring perfect results every time.
- Provides excellent wetting, cleaning and low foam properties.
- Contains chlorine for the removal of tannin from cups.
- Suitable for use in all hard water conditions.
- Non caustic and non clogging.
- Safe for use on all crockery.
- Surfactants used are biodegradable and phosphate free.

PROPERTIES:

Appearance @ 20°C
pH (1% solution)
Odour

SPECIFICATION:

White powder
13 +/- 0.5
Chlorine

DIRECTIONS FOR USE:

- Remove food scraps from dishes before stacking into dishwasher.
- Dilute 2x50g scoop measures per 45 Litres of water (i.e. a dilution rate of 1:45).
- For best results wash water temperature should be between 60°C - 70°C.
- To enhance overall performance, use Kitchenmaster Rinse Aid in final rinse cycle.

STORAGE:

Store in original container and protect from extremes of temperature. Do not store in direct sunlight nor allow the product to freeze. Shelf life (in unopened original container) is a minimum of 18 months. Replace lid after use.

SAFETY ADVICE:

Under the new GHS Standard this product is classified as Corrosive and Irritant. Please refer to section 2.2 of the Safety Data Sheet for more information.

PACK SIZES:

10Kg bucket (64 per pallet)
20Kg bucket (20 per pallet)
