TECHNICAL SPECIFICATION

OVEN CLEANER 100

Alkaline Oven Cleaner designed to clean carbon and grease deposits from ovens, deep fat fryers, griddles, stove burners, plates and grills. Product contains a blend of caustic soda solution, surfactants, viscosity modifiers and dyes.

Features include:

- Gel formulation gives improved adhesive powers to vertical surfaces.
- Concentrated formulation means carbon deposits are broken down quickly.
- Suitable for use on ovens, kitchen ranges, griddles and cooker hoods.
- Reacts with fats to form soap which can be wiped away easily.
- Wetting agents help penetration of greasy soils.
- Surfactants used are biodegradable and phosphate free.
- May be used in all water conditions.
- Not recommended for use on aluminium, zinc or their alloys.

PROPERTIES:

Appearance @ 20°C
pH (neat)
Odour
Specific Gravity @ 20°C
Flammability

SPECIFICATION:

Colourless, clear, viscous liquid
> 13.5
Characteristic
1.050 +/- 0.004
Non-flammable

DIRECTIONS FOR USE:

- Apply by spraying, to warm but not hot surface.
- Apply sparingly.
- Leave for 20-30 minutes.
- Wipe with cloth. For stubborn soiling a non-scouring pad may be used to loosen soiling.
- Rinse thoroughly with clean water.

STORAGE:

Store in original container and protect from extremes of temperature. Do not store in direct sunlight nor allow the product to freeze. Shelf life (in unopened original container) is a minimum of 18 months.

SAFETY ADVICE:

Under the new GHS Standard this product is classified as Corrosive. Please refer to section 2.2 of the Safety Data Sheet for more information.

PACK SIZES:

6x750ml case (144 per pallet)

Order Code: HM100-6X750ML
